

New London- Waterford Speedbowl Bandolero Amendments 2024 Effective 1-1-2025

1. Fuel: The only approved fuels are automotive pump 87, 89, or 93 octane fuel purchased from a retail outlet containing a minimum of 7% to a maximum of 10% ethanol. Mixing of fuels is not permitted. Additives and race fuels are not permitted.
2. Gear Sprockets: The only approved gears are: 13/60, 14/65, and 15/70.
3. Tire Pressure: Maximum tire pressure will be 32 lbs. at any time, hot or cold. Tires cannot be touched after a feature event without approval from track officials.
4. Restrictor Plate: The only approved restrictor plate will be the blue plate. Restrictor plates may not be altered. Restrictor plates will be issued by New London-Waterford Speedbowl Officials and must be returned at the end of the event. Fines will be given to teams that do not return the track issued restrictor plate
5. Intake Manifold Fasteners, Carburetor Mounting Fasteners, Intake Elbow Fasteners, Restrictor Plate, and Gasket Stack. Any intake fasteners found loose or missing, intake system gaskets that are missing, damaged or incorrectly installed, as well as having the incorrect restrictor plate installed will be cause for disqualification of the car and driver.
6. All intake system gaskets must be correct and installed in the correct locations, and in good original condition. No modifications to the intake gaskets are permitted at any time.
7. Any modification to any of the intake parts will be cause for disqualification of the car and driver.
8. Transponders may be mounted in the forward position as specified in the INEX rulebook.
